Introduction to Appointment

Job Title: Clinical Fellow

Department: CTR Respiratory

Base: Royal Infirmary of Edinburgh, NHS Lothian

Post Summary:

The Respiratory Medicine Unit includes 46 inpatient beds (Ward 204), a Pulmonary Function Laboratory, a Sleep Lab and access to medical day case beds. This is the largest specialist respiratory ward in Scotland with high volume and rapid turnover of patients. We provide ward NIV and are re-introducing our Respiratory High Dependency area. The ward has a dedicated OT/Physio and pharmacy support. All the main respiratory subspecialties other than CF are co-located here including COPD, Asthma, Interstitial Lung Disease, Lung cancer, TB, Bronchiectasis, Pleural, Pulmonary Thrombo-Embollic Disease, Pulmonary Nodules, Sleep, Home Ventilation, amongst others. Each service area (inpatient and outpatient) has a dedicated group of consultants who provide a high level of daily senior decision making, support and supervision for the doctors in training and fellows. We promote MDT working and decision making and have a highly trained Respiratory Nursing Team on the ward.

Successful candidates can expect to become proficient in managing acutely ill and deteriorating respiratory patients and provide input both to inpatient and outpatient management of patients with Lung Disease. We are trialling a respiratory ambulatory outpatient service with our Respiratory ANPs. We can also offer access to multiple QI projects and research projects within Respiratory Medicine and have well established links with Edinburgh University. The successful applicants will be supported to focus on their own personal development including Simulation and Skills training, Quality Improvement, or Undergraduate Teaching throughout the year with 10% guaranteed development time.

For more information please contact: **Dr Melanie Cross, Respiratory Clinical Director, RIE**

RESPIRATORY MEDICINE Clinical Fellow

Post Summary:

These Clinical Fellow posts offer excellent experience in Respiratory Medicine. The Respiratory Medicine team has a reputation for excellence in teaching and training, patient safety and quality improvement with consistent positive feedback from trainees.

The consultant team includes 8 Academics with strong portfolios within Edinburgh University. The consultant body are enthusiastic, supportive and all enjoy teaching and training.

The respiratory Ward 204 in Edinburgh Royal Infirmary is one of the largest and busiest wards in the hospital. Within the department there are 19 Respiratory Consultants, 6 STR's, 2 IMT's and 3 FY1.

This post is aimed at FY2+ level i.e., doctors having recently completed the UK Foundation programme. The post will include supporting the respiratory on call team, inpatient care of the 46(+) bed respiratory unit managing both acute and chronic respiratory disease and outpatient clinics.

The successful candidate will have the opportunity to develop in respiratory medicine gaining experience in all sub-specialty respiratory outpatients, pleural procedures, pulmonary function, NIV and observe Bronchoscopy/EBUS/Medical Thoracoscopy and Navigational Bronchoscopy.

It is expected the successful candidate will develop as a teacher contributing as a co-tutor for University of Edinburgh year 4 students during their respiratory attachment and/or will also contribute to the ERI Respiratory Quality Improvement Team and/or may contribute to ERI Simulation training.

The post is designed to be an excellent opportunity to meet the educational and developmental needs for any candidate hoping to build a future career in Respiratory Medicine.

Communication and Working Relationships

The post holders will be expected to establish and maintain extremely good communications and working relationships with a wide range of staff, including:

- Clinical Director of the parent acute care specialty who will act as immediate Line manager
- Supervising Staff members from Medical, Clinical and AHPs backgrounds
- Academic mentor/ Named Clinical Supervisor
- Colleagues in training grades at Foundation, Core and Specialty level

Base

The post holder will be based in Ward 204 and the Respiratory Unit in Edinburgh Royal Infirmary, Lothian University Hospital and will spend much of their time with other clinicians, staff and medical students.

Annual leave

Annual leave is in accordance with the nationally agreed level for the grade of applicant.

Qualifications and Experience

The post holder must (at the time of commencement of employment) have full registration with the GMC. Ideally applicants will have recently completed a UK based Foundation Programme and understand the UK Healthcare system. It is no longer a requirement of employment within the NHS that medical staff be registered with a medical insurance organisation. Should you wish to maintain registration with such an organisation this is entirely your own choice.

Job Revision

This job description should be regarded only as a guide to the duties required and not definitive or restrictive in any way. It may be reviewed in the light of changing circumstances following consultation with the post holders. This job description does not form part of the contract of employment.

Training Approval

These posts are **not** recognised for training but have been designed in consultation with the Postgraduate Dean in relation to future employment status and eligibility for Core or Specialty training and are built on sound educational governance principles.

Appointment

The appointment will be on a full time basis for 6 or 12 months only and subject to satisfactory on-going appraisal within role.
